

### ATLE ProLearn Purpose

The ATLE Professional Learning Committee (ProLearn) was formed to assist zone representatives in offering meaningful professional development opportunities in the areas of leadership, technology and education.

ATLE ProLearn gives priority to applications that demonstrate a convergence of the three pillars; however, any session that provides value to our membership through at least one pillar will be considered.

Information about upcoming events can be found under the ProLearn tab at [www.atle.ca](http://www.atle.ca).

On Twitter

#ATLEProLrn

For three days every November stakeholders of technology in education gather at the ATLE’s Convergence Conference for networking and learning.

If you are interested in accessing ProLearn funds for your event, proposal forms are available from the ATLE website [atle.ca] in the ProLearn section.

## Partnerships

ProLearn is working with the Texas Computer Education Association (TCEA) to bring monthly webinars to our membership. These webinars are offered at a discount for ATLE members, who then have access to the recordings through our website.

\*\*\*

The ATLE is an affiliate member of the International Society of Technology in Education (ISTE). ATLE members are eligible for discounts when accessing the vast array of ISTE resources.
