

TCEA ONLINE COURSES AND CERTIFICATIONS

TCEA, a member-based ISTE-affiliated edtech organization based in Texas, is devoted to advancing technology in education--particularly by integrating technology into the PreK-16 environment and providing their members with state-of-the-art information through conferences, workshops, newsletters, the Internet, and collaborations with businesses and institutions of higher learning. Professional Development Course Offerings

With our similar mandates, ATLE is excited to have partnered with TCEA, to offer to our membership over 30 TCEA course offerings to ATLE members. Costs for courses begin as low as \$29 USD per course.

[TCEA Online Courses and Certifications](#)

TCEA's self-paced, [online courses](#) are built for educators and technology leaders like all of us ATLE folk across Alberta. TCEA's goal, like ATLE's, is to give people a series of experiences and learning opportunities that are self-paced and timely.

Boost your skills with remote learning tools, apps, and devices by exploring courses on [screencasting](#), [Canvas](#), [Chromebooks](#), [Bitmoji](#), [Seesaw](#), and [more](#). TCEA provides micro-credentialing online courses, and certifications are self-paced, engaging, and developed by experts to give you the most relevant skills that use educational technologies to create effective learning.

ATLE

Starting at \$29 USD per course, TCEA certifications and courses aren't just powerful, they're great value, too. Whether you are sharing this opportunity with your colleagues as you support their personalized professional learning, or simply taking each course yourself to get a good sense of your own knowledge in these areas as a leader, these are courses you should definitely consider exploring!

Hats off to TCEA for creating and sharing these opportunities with other edtech stakeholders across the continent!

But wait, there's more!

When you register for a TCEA course, you are presented with a dropdown menu that you scroll to identify your membership with ATLE. A portion of your registration fee will be shared with ATLE. ATLE will use these funds to support our mission. Enjoy the courses, and thanks for your support of both TCEA and ATLE!
